

KONICA MINOLTA

**Simple desktop interface** lets you manage your documents in local or network folders or on removable media drives, index documents and add annotations.

**More productive scanning** with bizhub multifunctional devices and bizhub PRO printing systems, to bring documents to your desktop faster and share information more easily with workgroups.

**Create industry standard PDF files** from your bizhub MFP or PC applications, including Microsoft Office.

**Never misplace a document again** with fast and reliable searches that enable everyone in your office to find any document instantly.

**PDF conversion** automatically converts scanned documents to searchable PDF files and popular word processing formats in a one-step process, yielding files that can be fully text-searched or integrated into word processing and spreadsheet applications.

**Integrated batch processing** allows "hands-off" digital archiving, so files can be routed where they are needed and projects can be scheduled overnight or at specific times.

**Edit PDFs** created from electronic documents to alter text and rearrange graphics.

**Thumbnail display** of both scanned images and digital documents – application thumbnails for PDF and MS Office formats, image thumbnails for TIFF, JPEG, and BMP files help you locate documents by sight quickly and easily.

**Drag-and-drop integration** of scanned images into desktop applications in one easy step.

**Add client and product information** to folders – information can be automatically added to documents that are scanned into those folders.

**Create distributable electronic forms** that can be sent to employees, clients, and partners.

**Documents and images can be combined** from multiple sources and applications.

**Shrink your color PDF files** using compression technology to as small as 1/8 of the typical size.

**Enterprise system productivity** gives company-wide content management systems simple front-end scanning capabilities for faster access to scanned images.

**Document Management Solution.** Scan documents on your bizhub MFP. Convert them to searchable PDF. Deliver them directly to your desktop PC. Add annotations. Combine files. Edit documents. Capture text. And do it all with one simple, integrated solution.

## System Components

**UNITYDESKTOP™ PROFESSIONAL SOLUTION:**  
OmniPage® Pro 15  
PDF Converter Professional 4  
PaperPort® Professional 11

## Automate your acquisition with unityDesktop™ Professional.

What happens to the documents you scan? Where do they go? What form do they take? How do they enter your workflow? With unityDesktop™ software, you'll have clear, simple answers to these questions – and your bizhub multifunctional device will become an even more powerful tool for speeding information flow and increasing productivity.

Instead of delivering documents to an Email account or an obscure network or local folder with no notification, unityDesktop makes scanning and acquisition a seamless process from bizhub to desktop. No more time-consuming multistep processes are needed to bring documents into your workflow; each new scanned image is automatically converted to a PDF file and made available in a simple PC desktop interface – all in the time it takes to return to your desk.

With unityDesktop, you'll have all the acquisition tools you need to manage scanned documents more quickly and cost-effectively – and a perfect match for your bizhub MFP or bizhub PRO printing system.

## Multiple workflow enhancements in a single solution.

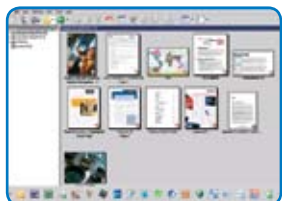

**OmniPage® Pro** automatically converts scanned images to fully text-searchable PDF files, Microsoft® Office documents and distributable forms in a single step to unlock information that was previously unavailable to serve your business needs.

**PDF Converter Professional 4** provides full editing tools for normal PDF files, allowing for changes in text and graphics, addition of watermarks and clip-art, and bookmarking.

**PaperPort® Professional** is the most productive and cost-effective way for everyone in your office to organize, find, and share paper and PDF documents. PaperPort Professional combines the efficiency of document management, the convenience of network scanning, and the power of PDF document creation and assembly.
